VIETRI SUL MARE PUBLIC BEACHES

The public beaches are located on both sides of river "Bonea". During high season, they are often overcrowded. A good alternative is the taxi boat that, leaving from small pier at the left of the river, takes to smaller and quieter beaches located between Vietri and Cetara. Another idea can be renting a kayak from the right of the river.

The first beach you will meet is called *Acqua del fico* (fig water) because of a small drinking fountain located near an ancient fig tree. Very characteristic is also the beach called *Travertino* for the presence of the omonymous limestone (*travertine*) visible as soon as you disembark with its white pebbles and a small fall of freshwater.

NEARBY PRIVATE BEACHES

If you like walking, you can reach the small beaches of **MARINA D'ALBORI** from the 200 steps starting from the "Strada Statale Amalfitana". You will be rewarded by the beauty of the scenary. You can choose between two private resorts:

Da Enzuccio and La Cartera.

If you want to visit the other inlets, we suggest renting a kayak from them.

Il Sentiero Dei Borghi Vietresi

This route was invented by "Il Duomo Trekking" tour operator. It allows excursionists to reach the hilly hamlets of Vietri (Albori and Dragonea) starting from the waterfront of Marina di Vietri. It will be the occasion to admire the authentic villages of our beautiful land.

Monte San Liberatore

From behind the Solimene Ceramics Factory, in Vietri sul Mare town centre, it is possible to take a path to reach the top of Mount "San Liberatore" that, with its distinctive cross, dominates the gulf of Salerno. Just before reaching the top, you'll encounter the ancient convent of "Cristo Re Liberatore" dating back to the VIII century.
